<https://github.com/raynimmo>

I am primarily a Front-end developer but I am also an experienced Drupal site builder and themer. I am proficient in all aspects of website design, development, delivery and deployment. I am adept at learning new techniques and technologies when confronted with a solution that demands it.

I am a resourceful, self-motivated and talented web developer with experience in delivering software projects to extremely high standards. I possess exemplary planning skills and am accustomed to operating under pressure, remaining calm and effective and prioritising wisely to meet deadlines. I am motivated by working as part of a productive team and equally comfortable working on my own initiative.

I am looking for an opportunity to join an accomplished web agency which can help me further develop my skills and enable me to help their business and be involved in innovative and exciting projects.
